

KOREAN AMERICAN COMMUNITY SERVICES

2013

ANNUAL REPORT

Celebrate ■ Educate ■ Empower

## About KACS

Korean American Community Services (KACS) was founded in 1972 by a group of concerned Korean Americans who met to discuss solutions to the acute problems that Korean immigrants were experiencing upon arrival in the United States. Our mission is to serve Korean Americans and others who are in need of social, psychological, educational or economic support, and to provide assistance in the immigration and acculturation process, thus to encourage them to live dignified and meaningful lives.

KACS currently serves more than 7,000 clients per year through comprehensive services across the life cycle, including:

- Early childhood education
- After-School Program
- Family and individual counseling
- Crisis intervention
- Community health and education
- Family clinic
- U.S. citizenship and other immigration assistance
- Employment counseling and placement
- Senior counseling and housing management
- Pro bono legal clinic
- Low income taxpayer clinic
- Financial education
- Arts and cultural programs
- English as a second language and civic classes
- Computer education
- School social work

## Words of Acknowledgment

We feel so blessed to be leading into its 41st year of operations the oldest, largest, and most comprehensive social service agency in the Midwest dedicated to meeting the evolving needs of Korean Americans and other immigrants.

While it is important to reflect on everything that has occurred during the past year, we can't help but anticipate with great excitement the new developments that are on the horizon for KACS. One of the major pieces of news of 2013 was the receipt of a grant of over \$850,000 from the Illinois Capital Development Board to be used to renovate and expand our existing Early Childhood Center, approximately doubling its current capacity of serving 90 students in toddler, pre-school, and after-school programs. While we can't think of a better way to invest in our future; nevertheless, we always remain committed to bridging the generational gap and providing comprehensive services across the life cycle.

None of our work would be possible without our committed supporters, which include foundations, corporations, government sources, and individuals who generously donate their time, effort, and monetary resources. Please read on to learn about the tangible impact your contributions have made within our community!

Dooshik Kim, President

## Early Childhood Center

---

## Early Childhood Center

“The benefits of having my daughter attend the Child Care Center at KACS are endless. She has learned to share, her speech has improved, and every day after school she has a new experience to share with us. I’m impressed by the level of passion and commitment from the teachers and staff. I couldn’t be happier without the KACS Early Childhood Center”

Elvira Reyes-Malagon

Since 1979, Early Childhood Center has combined learning with play. Providing instruction in English, Korean and Spanish, KACS Early Childhood Center provides a multicultural learning experience for children within a safe and structured environment. It is accredited to the highest level by the National Association for the Education of Young Children (NAEYC).

### Program Offering:

- Toddler program for children 2 years old: 12
- Preschool program for children ages 3 to 5: 60
- After School program for children ages 6 to 12: 17

## Community Education

## Community Education

Ms. AJ has been coming to KACS for a long time to receive help with paperwork and bills. She first found out about KACS because her dry cleaning business, located in Lincoln Park, was close to the center in Irving Park. Ms. AJ recently came to the center for help with paperwork for an upcoming doctor’s appointment; she needed assistance in understanding the doctor’s instructions and filling out the questionnaire that she had been given. When asked about her experience with KACS, Ms. AJ commented, “Thank you for helping me.... These people are very kind.” After retiring, Ms. AJ has been coming to KACS for ESL tutoring and expressed that she is grateful for the support she has received from KACS.

### Computer skills trainings

KACS’ Community Technology Center (CTC) serves over 1,200 low-income and immigrant populations that face numerous barriers to computer access and require substantial technology training a year. Public access to the CTC is free of charge including printing, internet access, and technical support from the CTC staff. In view of the technology training, KACS has enhanced our programs with the Internet and Computing Core Certification (IC3). KACS has four high-tech computer labs, connected to the Internet and printers.

### ESL/Civics/Korean classes

KACS offers various language classes including English, Korean, and Spanish. The mission of ESL/Civics/Citizenship classes is to reduce barriers for predominantly immigrants and low income families with limited English proficiency to achieve equal opportunity and further improve their quality of life. Currently we offer three levels of ESL/Civics classes: basic (level I and level II) and intermediate (level III).

### Arts & Culture

We provide Root East, Root West, multi-disciplinary arts and cultural programming targeting the underserved population in arts including the Korean American community in metropolitan Chicago. Programming includes workshops in various visual arts, performances, and exhibitions of contemporary and traditional art forms in multiple media, summer youth art camp, language classes such as Korean and Spanish.

## Citizenship, Immigration, and Legal Services (CILS)

## Citizenship, Immigration, and Legal Services (CILS)

“I was afraid to apply for renewal of green card because I had a legal issue in the past. KACS staff helped me every step of application process and I was able to renew my green card.

Now, I became a US citizen and receive government benefits for basic necessities of living. I can’t imagine what would happen to our family if KACS had not helped me at that time.

I am very grateful for the service received from KACS and will recommend other people in need.”

The department of citizenship, immigration and legal services (CILS) is currently running three major programs.

### 1. Citizenship and Immigration Services:

This program assists many immigrants at varying stages of the immigration process, providing wide array of application services from family invitation to citizenship. The program provides free citizenship application service and low-cost immigration services to clients who cannot afford private services from immigration attorneys. Certified by the Board of Immigration Appeals (BIA) under the U.S. Department of Justice, KACS also offers legal advocacy before U.S. Citizenship and Immigration Services (USCIS) for clients in need of legal representation.

### 2. Pro Bono Legal information clinic:

In partnership with the Korean American Bar Association (KABA) of Chicago, licensed attorneys will provide free legal consultation on a wide range of issues that clients bring and give them general legal information and direction. The pro bono legal clinic opens every first Thursday of the month at KACS Chicago main office. We have recently added the pro bono employment law clinic every third Thursday of the month to support the labor dispute cases of low wage earners.

### 3. Low Income Taxpayer Clinic (LITC):

This program is a far-reaching community campaign to educate taxpayers who speak English as a second language (ESL) by utilizing various economic, social, and cultural networks and resources. The campaign activities focus on reaching out to low-income families and people with limited English proficiency through workshops, media outreach, and distribution of information materials.

## Workforce Services

## Workforce Services

Mr. A came to us last year trying to find a job, but he reported having an alcohol abuse problem, which made finding and showing up to work difficult. Our staff referred him to AA and a local agency who could help him in recovery. A few months passed before Mr. A returned to KACS, at which time we started working on his resume. We initially helped him find a part-time job in a restaurant, then our job specialist recommended that he apply at a local manufacturing company, where he was offered a full-time job. A year has passed, and Mr. A reports that he has maintained sobriety and is still working with the same manufacturing company. He has been able to find a better place to live and he is trying currently trying to register for classes to continue his education.

Each year, Korean American Community Services' (KACS') our Workforce Services program assists over 200 low-income, limited English proficient Korean and Latino/a immigrants and other community members from the greater Albany Park and surrounding areas in overcoming barriers to employment. Our ultimate goal is to enhance our clients' marketability and employability and place them in jobs that earn a living wage and have opportunities for advancement. We offer comprehensive services including intake/orientation, comprehensive assessment and case planning, job readiness training, and placement, retention, and follow-up services. In addition, we provide inter-agency referrals to address clients' other social service needs; all of these services are provided in Spanish, Korean, and English.

Moreover, we host annual job fairs, where anywhere from 20 to 30 employers and training programs join us to recruit job seekers for the transportation, communications, warehouse, retail, home health care, and other industries.

Finally, in 2013, KACS launched a new class, titled ESL for Job Seekers, which provide an incentive for students to learn workplace vocabulary and learn soft skills such as how to write resumes and cover letters, how to utilize search engines to apply for jobs online, and how to dress for success and perform well at professional job interviews.

## Community Health

## Community Health

“Ms. O” is a 60-year-old woman who recently contacted KACS for help as she noticed over the last few years that a lump was growing in her left breast. There were many reasons she was not able to see a doctor, such as lack of insurance access, fear, and ongoing debilitating depression. The client visited KACS’ Family Clinic for her clinical breast exam, and our Nurse Practitioner was very concerned after finding a 7cm-large lump in the left breast. KACS’ staff set up an appointment for an ultrasound for Ms. O right away, which showed abnormal results and led to an appointment for a biopsy. When our social worker met Ms. O at the hospital for her biopsy, the patient looked panicked and horrified because she had a huge misconception about the procedure. The nurse kindly explained the procedure and answered the patient’s questions; armed with this knowledge, the patient was put more at ease. The patient is now undergoing chemotherapy after her surgery, and she feels more comfortable and competent in her knowledge about the process.

*The goal of health services* is to help not only uninsured and underinsured individuals to access appropriate health care services, but also to promote and protect the health of our community through providing information & referral, screenings, health outreach & educational workshops, and health fairs.

- 1) Family Clinic
- 2) Breast and Cervical Cancer Early Detection (B&C) Project
- 3) Annual Health Fair
- 4) Building Better Bones Project
- 5) Heart to Heart
- 6) Hepatitis B Education & Vaccination Program
- 7) Chronic Disease Self-Management Program (CDSMP)
- 8) Diabetes Self-Management Program (DSMP)

Senior Services and Public Benefits

## Senior Services and Public Benefits

The Department of Senior Services and Public Benefits (SSPB) has a client, Ms. K, who has had her legal permanent residency more than 20 years, and was working at local retail store until last year, when the store went out of business. Ms. K doesn't speak English at all, and had been paid by her employer in cash, which means she won't get any Social Security when she retires. Ms. K is 58 years-old right now, with no immediate family and no more income. Making things worse, she has very complicated back pain which has gone untreated due to a lack of medical insurance. Within the last three months alone, Ms. K ended up going to the ER multiple times, which resulted in thousands of dollars of medical bills. Thus, Ms. K came to us in a state of crisis, after hearing about KACS from one of her previous coworkers at the retail store where she used to work. Our case worker was able to get the client SNAP, LIHEAP, and Cook County Care (Medicaid expansion in 2012), and we are currently assisting the client in a search for affordable housing.

(SSPB) serves seniors and low to middle-income family in the community by helping them access to the public assistance. Staff who are culturally and linguistically competent to the clients' commit to improve individual clients' wellbeing as well as to build better community. Each staff will continue to serve every individual who needs help from us.

### Silver Wing volunteer program

### KARE (Korean American Alzheimer's Research and Education)

Wellness

## Wellness

Troubled by his history of child abuse and substance abuse, “Carlos” decided to take his local pastor’s recommendation of getting therapeutic help. Carlos reached out to KACS’ Wellness department and was connected with a compassionate counselor and a caring psychiatrist. With their support, Carlos has made great gains. “KACS has been nothing but good for me,” Carlos says. “I have a great counselor, and the psychiatrist has been very helpful in my feeling so much better.” He adds that counseling has given him the tools to deal with his depression, anxiety, and trauma. He goes on to say, “I wish I would have sought the help a long time ago, I could have avoided so much pain to my family, but I made a commitment to make changes – to heal – and thanks to the support I’ve received, I am happy and so is my family.”

“Thank you for helping my daughter. I am so glad that you talked to her and to me so that we could be on the same page. We are so much closer now and we can talk about what is bothering her. Before this, I didn’t know that she was upset, but now she knows that she can talk to me and can trust me.” – Parent of Fierce, Young, and Inspired (F.Y.I.) Group Participant

“Thank you for all of your help and all of your compassion. I know that we are this happy because we have you in our lives. I’m just really grateful and can only say thank you, thank you, thank you.” –DVPFS Program Client

### Counseling

- Domestic Violence Prevention & Family Support (DVPFS)

### Independent Auditor's Report

The Board of Directors  
Korean American Community Services  
4300 N. California Avenue  
Chicago, Illinois 60618

I have audited the accompanying statement of financial position of the Korean American Community Services (KACS), an Illinois not-for-profit organization, as of June 30, 2012, and related statements of activities, functional expenses, and cash flows for the fiscal year then ended. These statements are the responsibility of KACS' management. My responsibility is to express an opinion on these financial statements based on my audit. The prior fiscal year summarized comparative information is derived from KACS' 2011 financial statements, which were audited by me. My report, dated September 15, 2011 expressed an unqualified opinion on those financial statements.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of KACS as of June 30, 2012, and the changes in its net assets and cash flows for the fiscal year then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, I have also issued a report dated October 22, 2012 on my consideration of KACS' internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts, and grants. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of my audit.

The accompanying schedule of federal awards expended is presented on page 15 for the purpose of additional analysis as required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

*James M. Babic, PC*

October 22, 2012
